Exhibit to Application for License to Cover Construction Permit BMPH-20040809AAN  
KAEG-FM Anchorage, AK  
MCC Radio, LLC

We respectfully request that Special operating condition / restriction #1 be removed from Construction Permit BMHP-20040809AAN. This permit authorizes a power increase and transmitter site change for KEAG-FM, with an antenna mounted on a tower also used by KHAR-AM and KUDO-AM. Condition #1 requires impedance measurements and the filing of FCC Form 302 with respect to these two AM stations.

The facility upgrade of KEAG-FM recently completed by MCC Radio, LLC. made use of an existing multi-user FM antenna. No changes were made to the antenna, transmission line or isolation system. In short, no changes were made that would cause any change in the operating antenna impedance of either AM station, and therefore measurements are unnecessary.

Thomas S. Gorton P.E.  
Consulting Engineer
