In re: Low Power Television Application of:  
Airwaves, Inc.  
Channel 10, Ogden, UT.  
File number: BPDVL-20090507ACE  
Facility Id No.:168495

Dear Applicant:

On June 1, 2009, the licensee was sent a 30 day letter outlining the following interference issue:

Our preliminary engineering review reveals that your proposed facility does not comply with the Commission's interference rules. Specifically, the proposal is predicted to cause interference to the following facilities:

1. KCBU, Price, UT. – BPCDT-20080530AGB

You were given the opportunity to file a minor amendment to resolve the specified interference problem within (30) days from the date of that letter. Amendments must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Our records indicate that no amendment was filed after the date of the letter referenced above to resolve the interference issue. Our re-analysis reveals that this proposal is predicted to cause interference to the same facility as indicated above in the original 30 day letter; therefore, the above referenced application is considered incomplete and IS HEREBY DISMISSED.

Sincerely

Hossein Hashemzadeh  
Associate Chief  
Video Division  
Media Bureau
