

## CONSENT TO INTERFERENCE

Non-Commercial Educational Television Station WUNG-DT, Concord, North Carolina (Facility ID No. 69124), licensed to The University of North Carolina ("UNC-TV"), seeks, in FCC File No. BPCDT-20060616ACB, authorization from the FCC for a maximized post-transition digital construction permit for DTV operation on Channel 44 with an effective radiated power of 160 kW at 422 meters antenna height above average terrain ("HAAT"), with a non-directional antenna.

Commission Staff has notified UNC-TV that its proposal is predicted to receive 0.7% new interference from the Channel 43 operation of WLXI-TV, Greensboro, North Carolina, and the Channel 45 operation of WJPM-TV, Florence, South Carolina. UNC-TV finds that the predicted new interference to WUNG-DT is de minimis and consents to such interference.

Accordingly, effective on the date hereof, the undersigned, a duly authorized representative of UNC-TV and WUNG-DT, hereby acknowledges the foregoing and agrees to accept the predicted 0.7% interference from WLXI-TV and WJPM-TV.
