

ENGINEERING STATEMENT
ON BEHALF OF
CCR-STEPHENVILLE III, LLC
RE SECTION 73.3555 OF THE FCC RULES
REGARDING STATIONS
KSTV(AM), STEPHENVILLE AND KSTV-FM, DUBLIN, TEXAS
AND KYOX(FM), COMANCHE, TEXAS
APRIL 2004

COHEN, DIPPELL AND EVERIST, P.C.
CONSULTING ENGINEERS
RADIO AND TELEVISION
WASHINGTON, D.C.

COHEN, DIPPELL AND EVERIST, P. C.

City of Washington)
) ss
District of Columbia)

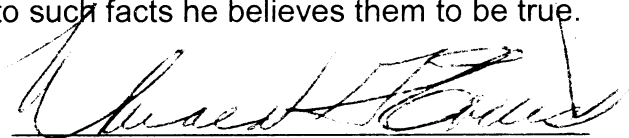

Donald G. Everist, being duly sworn upon his oath, deposes and states that:

He is a graduate electrical engineer, a Registered Professional Engineer in the District of Columbia, and is President, Secretary and Treasurer of Cohen, Dippell and Everist, P.C., Consulting Engineers, Radio - Television, with offices at 1300 L Street, N.W., Suite 1100, Washington, D.C. 20005;

That his qualifications are a matter of record in the Federal Communications Commission;

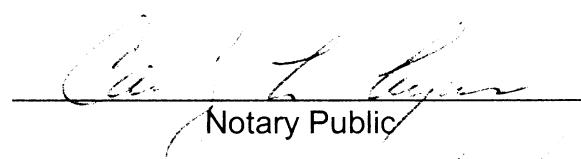

That the attached engineering report was prepared by him or under his supervision and direction and

That the facts stated herein are true of his own knowledge, except such facts as are stated to be on information and belief, and as to such facts he believes them to be true.

Donald G. Everist
District of Columbia
Professional Engineer
Registration No. 5714

Subscribed and sworn to before me this 15th day of April, 2004.

Notary Public

My Commission Expires: 2/25/2005

This engineering statement has been prepared on behalf of CCR-Stephenville III, LLC and provides information to accompany request concerning Section 73.3555 of the FCC Rules and Regulations with respect to radio stations KSTV(AM), licensed to Stephenville, Texas (1510 KHz); KSTV-FM, licensed to Dublin, Texas, Channel 226C3 (93.1 MHz) and KYOX(FM), licensed to Comanche, Texas, Channel 232C (94.3 MHz).

A study has been performed on the predicted principal community contours (3.16 mV/m) for FM stations KSTV-FM and KYOX(FM) and 5.0 mV/m for AM station KSTV(AM).

The facilities for each station abstracted from CDBS are as follows:

KSTV-FM (CP mod), Dublin, Texas, 7 kW ERP, 599 meters HAAT

KYOX(FM) (Lic), Comanche, Texas, 32 kW ERP, 189 meters HAAT

KSTV(AM) (Lic), Stephenville, Texas, 1510 KHz, 0.5 kW, ND

KSTV(AM) (App), Granbury, Texas, 1510 KHz, 0.25 kW, DA-D

For the KSTV(AM) broadcast facility, the principal community contour (5.0 mV/m) was computed using the listed daytime radiation value per Section 73.183 of the FCC Rules in connection with the published FCC ground conductivities. For stations KSTV-FM and KYOX(FM), the principal community contour (3.16 mV/m) for each station was computed in accordance with Section 73.313 of the FCC Rules using the NGDC three-second computerized data base. Exhibit E-1 depicts those principal community contours.

Exhibit E-2 shows the location of the principal community contours of stations KSTV-FM, KYOX(FM), and KSTV(AM) license and application and the other AM and FM commercial stations that serve a part of KSTV-FM, KYOX(FM), and KSTV(AM) composite contour. The attached Table I includes a list of all facilities of all other commercial AM and FM stations shown on Exhibit E-2. There are seven other AM and FM stations whose principal community contour serves a portion of the composite area. Therefore, these stations meet the requirements of Section 73.3555 of the FCC Rules.

Cohen, Dippell and Everist, P.C.
