Dear Rod:

I am the holder of a construction permit for FM translator station K266AK, Aspen, Colorado (BMPFT-20050927AMM, granted October 7, 2005). A license application covering the outstanding construction permit was filed on October 19, 2005 (BLFT-20051019AAZ). I wish to "gift" you my interest in the outstanding construction permit and license application - which is subject to prior FCC approval and the related transmission equipment already in place. If you are in accord with my offer, please sign where indicated and return to me.

Sincerely,

Marcos Rodriguez
