"ENGINEERING FOR PUBLIC WORKS & INDUSTRY"

July 18, 2011

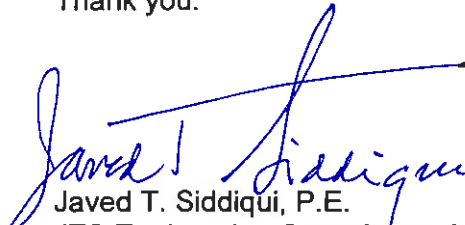

Job No: 2011-020

**RE: KQEI-FM Antenna Certification**  
**7751 Sorrento Road, Elverta, Ca.**

To Whom It May Concern:

On April 21, 2011, surveyors under my supervision conducted measurements of a new ERI directional antenna for Station KQEI-FM, North Highlands, California. Using standard surveying techniques, we determined that the alignment of all three antenna elements was within 24 minutes of the specified 210°T, as indicated on the ERI.

Thank you.
