Re: NCE FM Station KDFG(FM), Seaside, California (FIN 15936)
Request to Change Parent Station Associated with Satellite Station

Dear Ms. Dortch:

University of Southern California ("USC"), the licensee of noncommercial educational FM station KDFG(FM), Seaside, California (FIN 15936), by its attorneys, hereby requests that the parent station associated with KDFG(FM) be changed to co-owned noncommercial educational FM station KOSC(FM), San Francisco, California (FIN 69143)¹ and that KDFG(FM)'s license (File No. BMLED-20160616AAA) be updated accordingly and reissued.

By way of background, the FCC had granted a main studio waiver for KDFG(FM) to operate as a satellite of KDFC(FM), Angwin, California (FIN 27946) (See Condition No. 3 in File No. BMLED-20160616AAA) in connection with USC's acquisition of KDFG(FM). USC now desires to specify KOSC(FM), San Francisco, California (FIN 69143) as the parent station of KDFG(FM).

Should any questions arise concerning this matter, please contact this office directly.
