

Exhibit 15

Compliance with Local Radio Ownership Rule (47 C.F.R. § 73.3555(a))

By this exhibit, Mapleton Communications, LLC (“Mapleton”) confirms that this assignment application complies with the FCC’s local radio ownership rules under the Arbitron Metro methodology.

BIA reports that there are thirty-eight full-power, commercial and non-commercial radio stations as located within or “home” to the Spokane, Washington Metro Market. Under the Commission’s local radio ownership limits as set forth at 47 C.F.R. § 73.3555(a)(1)(iii), in a radio market with between thirty and forty-four (inclusive) full-power, commercial and noncommercial radio stations, a party may have a cognizable interest in up to seven full-power, commercial radio stations, of which four may be in the same service (AM or FM).

By this application Mapleton proposes to acquire the following radio stations that either have communities of licenses located within the Spokane, Washington Metro Market or are “home” to this Metro Market:

KZBD(FM), Spokane, Washington
KEYF(AM), Dishman, Washington
KEYF-FM, Cheney, Washington
KJRB(AM), Spokane, Washington
KDRK-FM, Spokane, Washington
KGA(AM), Spokane, Washington
KBBD(FM), Spokane, Washington

Because Mapleton owns no other radio stations in or near the Spokane radio market, consummation of the transaction proposed herein would give Mapleton cognizable interests in seven full-power commercial radio stations in this Metro Market, of which four are in the FM service. Consequently, grant of this application complies with the FCC’s local radio ownership rules under the Arbitron Metro Market methodology.
