

## Exhibit 23 - International Borders

This KMJR minor modification application is located within 320 kilometers of the border with Mexico.

The KMJR Channel 279C1 reference site is fully spaced to all Mexican allotments and full power FM stations. The KMJR Channel 279 application site is fully spaced to all Mexican allotments and full power FM stations. Because the proposed KMJR facility is being located on the same frequency, FM Class and tower as the licensed facility of KXAI, Channel 279C1, Refugio, Texas, Mexican concurrence may not be required. Educational Media Foundation requests and will accept a conditional construction permit issued prior to notification of acceptance of the proposed modification from the Mexican government.
