

APPLICATION FOR STATION LICENSE
DOUBLE O CENTRAL NEW YORK CORPORATION
WBKT RADIO STATION
CH 237A - 95.3 MHZ - 0.47 KW
NORWICH, NEW YORK
May 2005

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Double O Central New York Corporation ("Double O"), licensee of radio station WBKT, Channel 237A, Norwich, New York. Double O has an outstanding permit to correct the coordinates of the licensed WBKT facility (BPH-20040831AAN). Double O herein submits a license application to cover the outstanding permit. Double O is operating WBKT under automatic program test authority. A calculation of the transmitter power output of the WBKT transmitter is attached as Exhibit A.

There are two operating conditions/restrictions on the WBKT permit. The first condition notes the permit for WBKT was granted pursuant to §73.215 of the rules.¹ Double O acknowledges this condition. The remaining condition states that Double O will reduce the power of WBKT or cease operation, as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. Double O will comply with this requirement. Based on the foregoing, it is believed that WBKT is operating in compliance with the Commission's rules and that all conditions have been met.

1) The contour protection was to address the shortage to station WDHN-FM. Double O notes that the shortage to WTTC-FM was pursuant to §73.213(c) of the rules. WBKT retains its grandfathered rights towards WTTC-FM as a 3.0 kilowatt equivalent Class A facility.
