Atlanta, GA 30305

Re: Cumulus Licensing LLC (Cumulus)
WXQW (AM), Fairhope, Alabama
Facility Identification Number: 2541
Special Temporary Authority (STA)
BESTA-20180809AAI

Dear Mr. Denning:

This is in reference to the request filed on August 9, 2018. Cumulus requests a further extension of the STA granted on June 8, 2010, to continue operating with parameters at variance pending the filing of the FCC Form 302 application to cover BP-20170118ABN.¹ In support of the request, we noted that Cumulus has not yet filed the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Cumulus may continue to operate with parameters at variance ND (day and night) using a maximum of 10

¹ WXQW is licensed for operation on 660 kHz with 10 kW day (ND) and 0.85 kW night (DA), and BP-20170118ABN authorizes a change to ND at night using 0.019 kW.

kW day and 0.019 kW at night, or using the licensed nighttime DA pattern with reduced power to maintaining nighttime monitor points within licensed limits. Cumulus must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47-CFR § 1.1310.

This authority expires on **March 2, 2019**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.

Joseph Szczesny, Engineer
