EXHIBIT 1

August 2013

This minor amendment application specifies changes to Section III-A-Engineering Tech Box as follows:

9. Effective Radiated Power to 0.190 kW (H&V)

Preclusion Study Analysis

The Smithfield application specifies a transmitter site that is 49.5 km outside the Salt Lake City –Ogden Spectrum Limited market, thus no Preclusion Study is required as the transmitter site is not within 39 km of any Appendix A Market grid and/or within an Top-50 Spectrum Limited Market.
