Richard Towne, General Manager
KUNM Radio
University of New Mexico

Via e-mail: richardtowne@kunm.org

Mr. Towne,

This letter is to advise you that on January 28, 2012 I, Larry L. Sterling, a registered New Mexico Professional surveyor (NMPS 11010) did inspect the FM Directional Broadcast Antennas situated in Arroyo Seco, Taos County, New Mexico.

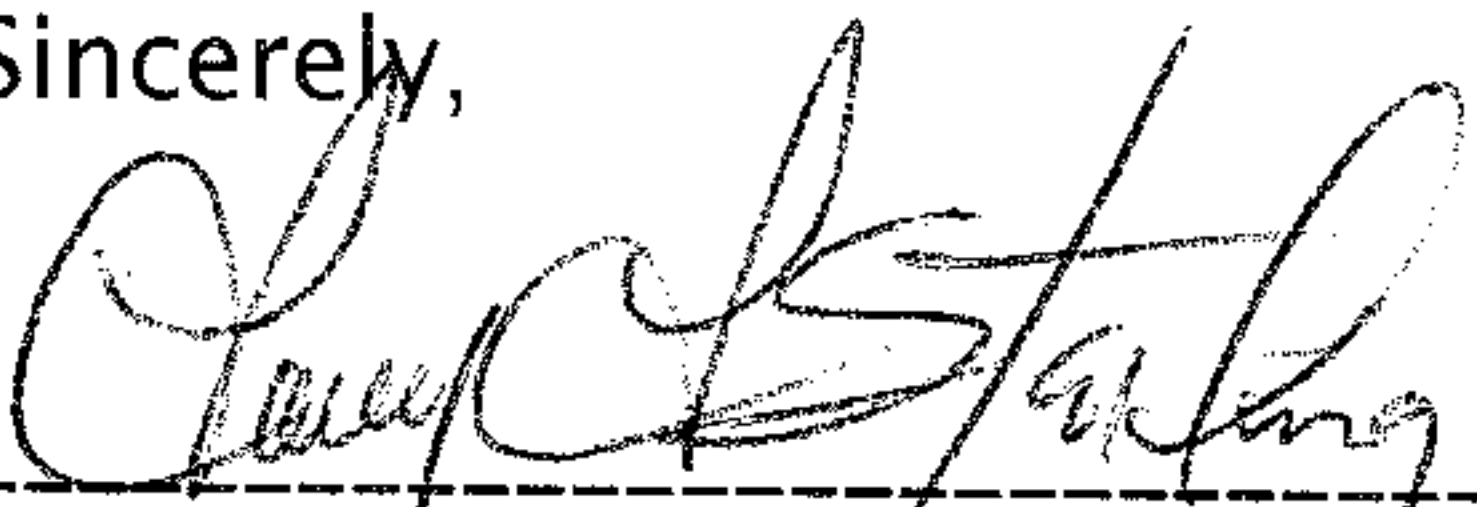

Using a Brunton handheld compass and a Garmin GPSmap 60CSx handheld Global Positioning System, I made the determination that one antenna has a directional alignment of 0.0° north azimuth and the other antenna has a directional alignment of 245° north azimuth .

I verified the tower latitude and longitude to be:

N36°23'51.9"
W105°32'37.6"

If I can be of further assistance, please do not hesitate to contact me.

Sincerely,

Larry L. Sterling, NMPS 11010
