In re: Low Power Television Application of:  
New Media Partners, LLC  
Channel 47, Chico, CA.  
File no.: BNPDTL-20101004ADA  
Facility Id No.: 188676

Dear Applicant:

Within 30 days from the date of this letter, file an amendment to resolve the deficiencies that were discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the application.

Specifically, the latitude coordinates reported in the above referenced new digital construction permit for ASRN number 1271337 is N 39 43 35.1 and the latitude coordinates of our Antenna Registration Search of ASRN number 1271337 is N 39 43 46.9.

In addition to the above latitude deficiency, the Overall Tower Height Above Ground Level of the proposed construction permit is 31 meters; however, the Antenna Registration Search results show the Overall Tower Height Above Ground Level as 29.9 meters which equals a proposed tower height increase of 1.1 meters which will require notification and new tower registration with the FAA.

Sincerely

Hossein Hashemzadeh  
Deputy Chief  
Video Division  
Media Bureau
