

Engineering Statement and Interference Analysis

This technical statement supports this application to modify BPTTA-20121210ADL for WNYA-CA on channel 15 in Kinderhook, NY, Facility ID 30429.

The application is minor in nature because the only changes proposed are the Height of Radiation Center Above Ground Level and the Maximum ERP. No other changes are proposed.

The proposed channel 15 facility was studied using the Techware's tv_process_2010 software on a Sun Blade 1500. It is believed that the proposed facility complies with the requirements 47.C.F.R Sections 73.6011, 73.6012, 73.6013, 73.6014, 73.6020, 73.1030, 74.709 and other applicable parts of the Rules and Regulations of the Federal Communications Commission. However, to the degree that it is deemed necessary, the Applicant requests a waiver of these other applicable Commission rules in order to allow for the grant of this instant application.

Digital TV Station Protection

The proposed operation causes less than 0.5% interference to surrounding digital assignments and allotments and facilities (i.e., "*de minimis*"). It is believed that the proposed operation is in compliance with the spirit and intent of the FCC's interference standards.

Low Power TV and TV Translator Station Protection

The proposed operation causes less than 0.5% interference to surrounding low power assignments and allotments (i.e., "*de minimis*"). It is believed that the proposed operation is in compliance with the spirit and intent of the FCC's interference standards.
