

Exhibit 7

The antenna model number disclosed in the underlying construction permit (BMPCDT-20010403ABS) and the construction permit application contained a minor typographical error. Specifically, those materials identified the model number as ATW26H57-ESC1-28S; the correct model number is ATW26HS7-ESC1-28S. Other than this typographical error, the constructed facilities are identical to those authorized in the construction permit.
