

Compliance with Special Operating Conditions

The Construction Permit contains several Special Operating Conditions, summarized as follows:

1. The permittee/licensee, in coordination with other users of the site, must reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. Permittee has specified the use of a Jampro Double-V (EPA Type 2) antenna with four sections to demonstrate compliance with FCC RF guidelines. If any other type or size of antenna is used, automatic program test provisions of 73.1620 do not apply.
3. The permittee must provide the results of a complete proof-of-performance to establish the horizontal plane radiation patterns for both the horizontally and vertically polarized radiation components.
4. The permittee must provide an affidavit from a licensed surveyor to establish that the directional antenna has been oriented at the proper azimuth.
5. The permittee must submit an affidavit that a qualified engineer oversaw the installation of the directional antenna system.
6. The permittee must provide a statement that the relative field strength of neither the measured horizontally nor vertically polarized radiation component exceeds, at any azimuth, the value indicated on the composite radiation pattern authorized by the construction permit.
7. Waiver of 47 C.F.R. Section 73.1125 is granted to allow operation of the facility authorized by this construction permit as a satellite operation of station KLVR-FM.

Educational Media Foundation ("EMF"), complies with, or agrees to, these conditions, as follows (exceptions noted):

1. EMF, in coordination with other users of the site, agrees to reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines
2. EMF has used a Jampro Double-V (EPA Type 2) antenna with four sections; therefore no further action is required.
3. See Exhibit 9A.
4. See Exhibit 9B.
5. See Exhibit 9C.
6. See Exhibit 9A.
7. EMF reiterates the commitments outlined in its request for waiver of section 73.1125. See also Exhibit 6.

Therefore, all Special Operating Conditions of the KKLY Construction Permit (FCC File Number BPED-20020301AMI) have been met.
