

Exhibit 1

PREVIOUS LICENSEE NOT ON AIR  
Application Channel 50, Logan, Utah,  
Airwaves, Inc.  
453 Simoron Drive.  
Ogden, Utah 84404

K50IB, ID 129077, licensed and silent to Marcia T. Turner  
Status Date 06/09/07  
Granted a STA BLSTA20000806ACO to remain silent for 6 months  
Granted an extension BLESTA20071204ACC of an additional 6 months to remain silent.

This station has not been on the air for more than one year.

Proof

The accompanying photograph of the site licensed, 41 DEG N 52" 18.7 North  
111 deg.48 " 34.9 West shows no antenna to transmit a television signal on channel 50.

Records show Licensee has not filed with the FCC that the station has been broadcasting since the STA extension was granted, One year would be a year after 06//09/08 or 06/09/2009. Licensee is therefore indicating that the station has not been on the air, ever.

Two residents of the area write that they have never seen or heard of K50IB.

Because the station qualifies for loss of license for failure to broadcast for a period exceeding one year, applicant requests the Commission grant this application.

Airwaves 50 Logan exhibit 10 page two

To Whom it may concern,

In over a year, including the last year, I have never seen any programming being broadcasted on Channel 50.

Sincerely Jeremy Threlfall - Richmond, Utah
