KVKL(FM), Las Vegas, NV, Fac. ID 88719, BLED-20061201AJD

⁸ This application is mutually exclusive with an application for a new NCE-FM at Tehama, California, Facility I.D. 81539, BPED-19960416MB, and a major modification to KNCA(FM), Burney, California, Facility I.D. 50621, BPED-19960417MD (MX Group 95077E). The Commission has tentatively concluded that KNCA's application qualifies for a comparative preference. See Letter to North Valley Education Community Radio, Inc., *et. al.*, from Peter H. Doyle, Chief, Audio Division, FCC, DA 05-1865, dated June 29, 2005 (the "KNCA Letter Ruling"). North Valley Educational Community Radio, Inc. filed a Petition for Reconsideration against the KNCA Letter Ruling on July 29, 2005, arguing that its application for a new NCE-FM station at Tehama, California – a community that has no broadcast stations licensed to it – should have been preferred over the State of Oregon's major modification application for KNCA, because Burney, California has three broadcast stations licensed to it.

⁹ Permit BPET-19960920KP expired on February 20, 2000, without the proposed facilities being constructed. However, references to the permit remain in CDBS.

¹⁰ This application was dismissed on March 9, 2007. A Petition for Reconsideration of the dismissal was filed on April 16, 2007.

Beverly M. Smith is a 33 1/3% general partner of Valley Broadcasters, which has pending the following application for original construction permit:

New AM, Olivehurst, CA, Facility I.D. 160999, BNP-20040130ASO²⁷

²⁶ This application is mutually exclusive with an application for a new NCE-FM at Tehama, California, Facility I.D. 81539, BPED-19960416MB, and a major modification to KNCA(FM), Burney, California, Facility I.D. 50621, BPED-19960417MD (MX Group 95077E). The Commission has tentatively concluded that KNCA's application qualifies for a comparative preference. *See* Letter to North Valley Education Community Radio, Inc., *et. al.*, from Peter H. Doyle, Chief, Audio Division, FCC, DA 05-1865, dated June 29, 2005 (the "KNCA Letter Ruling"). North Valley Educational Community Radio, Inc. filed a Petition for Reconsideration against the KNCA Letter Ruling on July 29, 2005, arguing that its application for a new NCE-FM station at Tehama, California – a community that has no broadcast stations licensed to it – should have been preferred over the State of Oregon's major modification application for KNCA, because Burney, California has three broadcast stations licensed to it.

²⁷ This application is subject to AM Auction No. 84.
