August, 2017

### Minor Change Pursuant to 47 C.F.R. §73.3573(a)

The subject station's authorized 60 dBu contour is shown below as the thin red dashed contour. The 60 dBu contour of the facility proposed herein is the thick red solid contour. Because these contours overlap, and the upgrade to an NCE-FM Class B facility is proposed on the station's present channel of operation, the instant proposal is considered a minor change pursuant to Section 73.3573(a) of the FCC Rules.
