

Arizona Christian University

Educational Purpose Statement

Arizona Christian University (“ACU”) is a non-profit educational organization with a biblical teaching focus. ACU is incorporated in the State of Arizona as a not-for-profit corporation. Our mission is to provide a biblically integrated education that prepares graduates to serve in ministries and professional occupations.

A noncommercial educational FM radio station will allow ACU to advance its educational programs and better achieve its mission by offering a platform for excellent Christian teaching and music to the Prescott community and surrounding areas, especially focusing on seniors and those who are unable to attend ACU classes regularly. Specifically, these are the areas the radio station will aid in allowing ACU to achieve its educational goals:

- Regular Bible study programming
- Intercessory prayer call-in
- Musical selections which will provide inspiration and encouragement
- Local news and weather
- Civic and social concerns of interest to the citizens of the Prescott community and surrounding areas
- Programs focusing on interpersonal relationships and how having a personal relationship with God through Jesus Christ is the basis on which to build strong families and a successful life
- Youth programming to include coverage of sports events, announcements of concerts and community events
- Programs that address the needs of Senior Citizens
- Community calendar

All programming on the station will be noncommercial in nature, with no advertisements, and no support for or opposition of a candidate for political office.
