## ENGINEERING STATEMENT

**AMENDMENT TO:**  
**WNXY-LP, FCC ID #29233, New York, NY**  
**FCC File Number BPTTL-20030714AEA**  
**Island Broadcasting Company**

In connection with an amendment which reduces the Maximum Effective Radiated Power of the within application from 10 kW to 1 kW, the following stations were studied using OET69 Longley-Rice methodology as employed in a program identical to that used at the FCC. For increased accuracy, signal resolution squares of 0.5 km on a side were employed as were terrain intervals of 0.1 km.

<b>CALLSIGN</b>	<b>CITY OF LICENSE</b>	<b>FCC FILE NUMBER</b>	<b>RESULT</b>
WNJN	Montclair, NJ	BLET-19860805KG	<0.5% population loss
WNJN CP	Montclair, NJ	BPET-19891219KE	<0.5% population loss
WMBCTV CP	Newton, NJ	BPCT-19980126KH	<0.5% population loss
WMBCTV	Newton, NJ	BMLCT-20011016AAQ	<0.5% population loss
WPVI-DT CP	Philadelphia, PA	BMPCDT-19980826KG	<0.5% population loss
WNYN-LP AP	New York, NY	BPTTL-20030929AJK	<0.5% population loss
WNYX-LP AP	New York, NY	BMPTTL-20030822AEH	<0.5% population loss
W64CW CP	Port Jervis, NY	BMPTTL-20030227ABA	<0.5% population loss

Accordingly, waiver of ruleparts §74.705, §74.706 and §74.707 with respect to the above-listed stations is respectfully requested.

This statement replaces the previous engineering statement submitted with the above-captioned application.
