ADDENDUM TO PETITION TO DENY RENEWAL

Donald Lynn Hullinger (Herein referred to as "The Petitioner") filed a petition to deny the above captioned license renewal request on 08/14/2013. Since the initial filing of the petition to deny, the licensee has continued to disregard commission rules (especially pertaining to maintaining main studio hours) and has harassed the petitioner in an attempt to intimidate him into withdrawing his petition.

On 1/26/2014 the petitioner was out of town and received a call from his sister stating that a letter had been left overnight on one of the vehicles at his residence in West Jordan, UT. The letter called the petitioner a derogatory name for homosexuals and demanded that he withdraw his petition to the FCC stating that if he didn't that they would "ruin him."

On 2/9/2014 the petitioner found a second letter in his vehicle that had been left there overnight. It again is an attempt to intimidate the petitioner into withdrawing his petition to deny. The note reads in part "you will not like what will happen if you do not withdraw it like we told you to"

This is the latest in a long string of harassment by the staff or associates of this licensee. This however, is the first time that they have directly demanded that the petitioner withdraw his petition. This goes to a long line of bad behavior by this licensee, its staff and associates. As such, it should be weighed heavily when the commission's renewal team is determining the direction in which they will proceed in respect to renewing the licensee's instrument to broadcast.

Attached you will find a copy of the letters that was left at the petitioners residence.

Thank you very much for your time and attention to this matter,

Donald Lynn Hullinger, Jr.

The fcc website says that you have not withdrawn your objection yet. You will not like what will happen if you do not withdraw it like we told you to do. Quit spying on the station. They all have been told who you are and what you look like and report every time they see you hanging around trying to find things wrong.

Dear Faggot,
Please withdraw you're
objection to KWCR
license renewal and
quit making trouble or
we will ruin you. Thay
see you in the student
building.
