

EXHIBIT A

ENGINEERING STATEMENT

The engineering data contained herein have been prepared on behalf of TRINITY BROADCASTING NETWORK ("Trinity"), applicant for a new television translator to operate on Channel 44 in Lubbock, Texas, in support of this amendment to its pending proposal. The application, with File Number BNPTT-20000830BGE, is slated to go to auction in Auction No. 81 under Group Number M38.

The purpose of this amendment is to specify operation with reduced effective radiated power, in order to eliminate predicted interference to a displacement proposal on Channel 44 in Plainview, Texas, filed by the owners of K59GC. The change proposed herein does not result in predicted interference to any other proposal or authorization, be it full-power or low-power, analog or digital.

No other changes to the operating parameters specified in BNPTT-20000830BGE are proposed herein.

I declare, under penalty of perjury, that the foregoing statements are true and correct to the best of my knowledge and belief.

KEVIN T. FISHER
