Re: Capstar TX, LLC, As Debtor in Possession
(Capstar)
WOFX (AM), Troy, NY
Facility Identification Number: 37233
Special Temporary Authority (STA)
BESTA-20180809AAW

Dear Mr. Davis:

This is in reference to the request filed on August 9, 2018. Capstar requests a further extension of the STA granted on October 14, 2010, to continue operating with parameters at variance to allow time to file an FCC Form 302 application due to repairs done over the past 8 years.¹ In support of the request, we noted that Capstar has not yet filed the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

¹ WOFX is licensed for operation on 980 kHz with 5 kW day (ND) and 5 kW night (DA).

Accordingly, the request for extension of STA IS HEREBY GRANTED, and Capstar may continue to operate day and night with parameters at variance and/or reduced power while maintaining the nighttime monitor points within licensed limits, or at night with the Moment Method derived parameters (kept within 5% current ratio and 3° phase of those parameters). Capstar must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR §1.1310.

This authority expires on **March 3, 2019**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke extending to the right.

Joe Szczesny, Engineer
