

## Installation Affidavit

To Whom It May Concern:

I, Kevin Terry, installed the Directional FM Antenna for KCPW-FM Salt Lake City, UT, pursuant to BMPED-20160330ATI. The undersigned certifies that the antenna was installed in a compliant manner using a Scala CL-FM (H&V) horizontally and vertically polarized sidemount antenna as follows:

- In compliance with the FCC Construction Permit, the antenna was installed so that the array's Center of Radiation is located at a height of 12 meters above ground level. This equates to 2088 meters above mean sea level.
- Pursuant to the antenna manufacturer's mounting instructions, the antenna was mounted on the southeast leg of the tower and with the radiating elements of the antenna pointed on an azimuth of 75 degrees true.

I certify that the KCPW-FM antenna was installed pursuant to the manufacturer's instructions and understand that this statement shall be included in an FCC filing. My qualifications are a matter of record at the Commission and include the following:

- I have installed FM antenna systems on towers for 17 years. In so doing, I have managed tower crews, climbed towers, assembled antennas, tuned antennas, and certified directional antenna installations on scores of radio stations. Antenna systems installed include brands such as Shively, ERI, Scala, Nicom, Bext, Jampro, SWR, and RFS. I have installed several directional and non-directional antenna systems including multi-station master panel, diplexed sidemount, single station sidemount, and numerous low power, translator, and booster FM antenna systems.

Certified this <sup>KAT</sup>11<sup>th</sup> day of November, 2016.

  
Kevin Terry, Technical Consultant

NOTARY ACKNOWLEDGEMENT:

STATE OF MONTANA  
COUNTY OF LEWIS AND CLARK

The foregoing instrument was acknowledged before me this <sup>14th</sup> day of November, 2016, by Kevin D. Terry. He is personally known to me or has produced a driver's license as identification.
