As part of the interference complaint Doug Pelley declaration will provide a full plotted google map of locations listeners reception who has expressed concern over the loss of reception that results from K243BN operating on Channel 243 (96.5 MHz). Translator FM K243BN Facility ID No. 92373 which is causing interference to the reception of full power KIKO (FM) pursuant to the listener complaints. See attached Listeners Complaints, incorporated by reference hereto Exhibit 1 and potted google earth map with engineer declaration as Exhibit 2.

## **CONCLUSION**

This additional listener complaint offers overwhelming proof that Translator FM translator K243BN is the root of the interference to the reception of KIKO(FM) . Pursuant to FCC staff where an interference complaint has been

filed by a bona-fide listener and the interference damages the direct reception by the the off-the air signal

of any authorized broadcast station, FCC rule 47 C.F.R. § 74.1203 is activated.

In the case of 47 C.F.R. § 74.1203, qualified interference complaints, the licensee must resolve the

complaint or terminate the FM translator operations. The interference has continued for months and K243BN should be compelled to terminate operation. The Rules regarding FM translators restrict FM translator stations to operate strictly on a secondary basis and limit their service. Section 74.1203(a)(3) of the Rules shall not be permitted to operate if it causes interference. 1TV.com has provided numerous actual interference complaints including the most recent October, 2018 complaint from Mr. Martin James.

MCT continues to violate FCC rule 47 C.F.R. Section § 74.1203(a) and with this recent complaint it is abundantly clear that MCT has nothing to stop the interference. Pursuant to FCC rule 47 C.F.R. Section § 74.1203(a) and more MCT should be order to terminate operation of K243BN.

***Where an interference complaint has been filed by a bona-fide listener and the interference damages the direct reception by the off-the air signals of any authorized broadcast station, FCC rule 47 C.F.R. § 74.1203 is activated. In the case of 47 C.F.R. § 74.1203, qualified interference complaints, the licensee must resolve the complaint or termination of the FM translator operations.***

***This matter has persisted for over six months and listeners are still receiving interference. 1TV.com respectfully requests that the Commission issues and order order instructing MCT to terminate operation of K243BN***
