
OWNERSHIP STUDY

This report is provided as an analysis of the compliance of the minor change application for WGRK-FM with the applicable multiple ownership rules. None of the stations owned in common by the Applicant, including WGRK-FM, is located within an Arbitron Metro; as a consequence, the permitted common ownership is determined under the interim contour-overlap methodology established by the Commission in its June 2, 2003 Report and Order in MB Docket No. 02-277 *et al.* Two markets are created by the mutually overlapping contours of commonly owned stations.

Market #1

WGRK-FM	289A	Greensburg, KY
WHHT	294A	Horse Cave, KY

Market #2

WGRK-FM	289A	Greensburg, KY
WAKY(AM)	1540 kHz	Greensburg, KY
WCKQ	281C3	Campbellsville, KY
WTCO(AM)	1450 kHz	Campbellsville, KY

In market #1, where there will be two FM stations owned in common, there are a total of 14 stations. In market #2, where there will be two FM stations and two AM stations owned in common, there are a total of 14 stations. Each market includes all commercial and noncommercial stations whose 3.16 mV/m (FM) or 5mV/m (AM) contours overlap the 70 dBu contour of any of the stations in the defined mutually overlapping market. Any non mutually overlapping commonly owned stations that overlap the reference market, and any stations with a transmitter site greater than 92 km from any portion of the mutually overlapping area were excluded.

Therefore, it is concluded that the proposed WGRK-FM minor change application complies with the ownership limitations of Section 73.3555 of the Commission's rules applicable to each market formed by overlapping contours of the relevant stations. No other attributable station overlaps the WGRK-FM 70 dBu contour.
