Request for Special Temporary Authority for Reduced Power Operation

NCE Station KNWY(FM), Yakima, Washington
Facility ID:71031/ FRN: 0001563949

Washington State University (“WSU”), pursuant to Section 73.1560 (d) of the FCC’s rules, notifies the FCC of the reduced power operation of noncommercial educational radio Station KNWY(FM), Yakima, Washington and respectfully requests Special Temporary Authority (“STA”) to maintain the reduced power operation for more than thirty (30) days, if necessary..

WSU is currently operating KNWY(FM) at 56% of its authorized power due to equipment failure. Specifically, the loss of a power amplifier has forced the station into its current low power operation, which commenced on December 12, 2010.

WSU is currently taking steps to repair the KNWY(FM) facility in order to resume full power operation. Specifically, the defective part has been sent to the manufacturer for repair, but due to the holidays, the repair will not commence until after the New Year. WSU hopes to restore full power operation within thirty days, but in an abundance of caution, respectfully requests STA for a period of three (3) months to allow for the repair, receipt and re-installation of the defective part necessary to restore full power status.

A grant of the STA will serve the public interest because it will allow WSU to maintain its existing noncommercial educational radio broadcasting over KNWY(FM) for listeners in the station’s community until such time as the necessary equipment repair can be completed.

WSU is a noncommercial educational licensee and operates KNWY(FM) on a noncommercial educational basis. Moreover, WSU qualifies as a governmental entity. This application is therefore exempt from FCC filing fee requirements pursuant to Section 1.1113 of the Commission’s Rules, and the facility is exempt from FCC regulatory fees, pursuant to Section 1.1162 of the Rules.
