

APPLICATION FOR AUXILIARY STATION LICENSE
WDAS LICENSE LIMITED PARTNERSHIP
WZFX (FM) AUXILIARY RADIO STATION
CH 256C1 - 99.1 MHZ - 12.5 KW
WHITEVILLE, NORTH CAROLINA
August 2007

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of WDAS License Limited Partnership ("WLLP"), licensee of radio station WZFX, Channel 256C1, Whiteville, North Carolina. WLLP has an outstanding permit to construct a new auxiliary FM antenna system associated with WZFX to be used when the main antenna system is out of service for repairs or maintenance (BXPB-20050826AAY).¹ WLLP herein submits a license application to cover the outstanding auxiliary permit. A calculation of the transmitter power output of the WZFX auxiliary transmitter is attached as Exhibit A.

There is one special operating condition indicated on the permit. The condition requires WLLP to reduce the power of the WZFX auxiliary antenna or cease operation, as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. WLLP will comply with this requirement.

Based on the foregoing, it is believed that WZFX auxiliary antenna is operating in compliance with the Commission's rules and that all conditions have been met.

1) WLLP also will use this auxiliary facility for digital operations for WZFX. A digital notification will be sent to the Commission separately.
