

Exhibit 31

Change in License Status

Vermont Public Radio (“VPR”) provides 24-hour service of noncommercial public radio news and information programming to WBTN-FM, Bennington, VT from noncommercial educational station WVPS(FM), Burlington, VT. In 2000, WBTN-FM was granted a main studio waiver to rebroadcast the programming of WVPS.

VPR has assigned news personnel from WVPS to cover local issues in Bennington. VPR also has representatives from the Bennington area participating on the advisory board of WBTN-FM. WBTN-FM maintains a toll-free number in the Bennington area so that residents from the area and vicinity are able to communicate with studio management and production staff at WVPS without cost.

WBTN-FM has been operated as a noncommercial station since it was assigned to VPR in November 2000. WBTN-FM has consistently claimed exemption from application and regulatory fees because of VPR’s not-for-profit status. VPR is filing this request to clarify the Commission’s records and to formally change WBTN-FM’s status from a commercial FM station to a noncommercial educational FM station.
