**Engineering Report
Exhibit 1 Supplement
LPFM Preclusion
BNPFT-20130830APM, Jersey City, NJ
December 2013**

This report is a supplement to the LPFM preclusion study submitted as part of this application. The November 2013 LPFM application window has passed, and all applications have been published in the FCC CDBS system.

The following is a study showing that there are no LPFM applications which could be effected by the proposed FM translator described in BNPFT-20130830APM. It was conducted using the FCC FM Query program, showing that there are no LPFM applications within 39 km of the proposed coordinates on the proposed or adjacent channels 245 (96.9 MHz) and 251 (98.1 MHz). There are no IF spaced channels with respect to channel 248.
