

**NEW AUXILIARY ANTENNA SYSTEM**  
**6 JOHNSON ROAD LICENSES, INC.**  
**WMEZ (FM) RADIO STATION**  
**CH 231C0 - 94.1 MHZ - 8.2 KW**  
**PENSACOLA, FLORIDA**  
**May 2002**

**TECHNICAL STATEMENT**

This Technical Statement and attached exhibits were prepared on behalf of 6 Johnson Road Licenses, Inc. ("6 JRL"), licensee of FM radio station WMEZ, Channel 231C0, Pensacola, Florida. 6 JRL herein requests authority to construct and operate a new auxiliary FM antenna system, located away from the licensed WMEZ main site for use when the main site is not operating properly, is out of service for repair or maintenance or is otherwise impeded from being able to provide service.

Since 6 JRL proposes to install the WMEZ auxiliary antenna system on an existing tower, the Federal Aviation Administration has not been apprised of this proposal. The tower is registered with the Commission and has been assigned Antenna Structure Registration #1054512.

It is noted that the WMEZ auxiliary facility will share an antenna with the auxiliary facility of WXBM-FM.<sup>1</sup> It is also noted that the proposed auxiliary FM station's 60 dBu contour is wholly contained within the licensed WMEZ main 60 dBu contour (see Exhibit A). All data used in certifying the information contained in the technical portion of this application has been forwarded to the applicant and is available to the Commission upon request.

---

1) An application proposing a new auxiliary antenna system for WXBM-FM, Channel 274C, Milton, Florida, is being filed by 6 JRL, the licensee of both facilities.
