### **ENGINEERING NARRATIVE**

E-STRING WIRELESS is applying to modify existing translator construction permit for K227AT file BNPFT20030829AYZ.

Modifications are as follows:

[1] Move to a new tower ASRN 1255993

FCC Antenna Structure Registration record for this tower indicate the NAD 83 Lat/Long as

36-24-23.5 N 097-54-22.6 W

When those coordinates are rounded to the nearest whole second and converted to NAD 27 the coordinates rounded to nearest whole second are:

36-24-24 N 097-54-22 W (NAD27)

If the NAD 83 coordinates are not rounded and then are converted to NAD 27, which are, rounded to the nearest whole second the lat/long is 36-24-23 N 097-54-21 W.

For this application 36-24-24 N 097-54-22 W (NAD27) is being used as the lat/long for Form 349.

[2] New RCAGL of 42 meters

### **EXHIBITS**

Exhibit 11.0 – This narrative

Exhibit 11.1 – Channel Study

Exhibit 12.0 – Map showing contours of relevant stations
