

STATEMENT REGARDING MULTIPLE OWNERSHIP

Millennium Central New Jersey License Holdco, LLC, which is indirectly wholly-owned and controlled by Millennium Radio Group, LLC ("Millennium Radio"), seeks to acquire herein from Press Communications, LLC ("Press") radio broadcast stations WKXW(FM) and WBUD(AM), Trenton, New Jersey. Concurrently with the instant application Millennium Atlantic City II License Holdco, LLC, which is also indirectly wholly-owned and controlled by Millennium Radio, is filing an application on FCC Form 314 seeking Commission consent to acquire radio broadcast station WBSS-FM, Millville, New Jersey from Press. In addition, on May 11, 2001, the Commission granted its consent to the voluntary assignment of licenses for radio broadcast stations WFPG(AM), WFPG-FM, and WPUR(FM), Atlantic City, New Jersey from Citadel Broadcasting Company ("Citadel") to Millennium Atlantic City License Holdco, LLC ("Millennium Atlantic City"), another subsidiary of Millennium Radio.¹ Millennium Atlantic City will also assume Citadel's rights and obligations pursuant to a time brokerage agreement for radio station WKOE(FM) in Ocean City, New Jersey.

The attached duopoly map prepared by Dataworld shows the principal community contours of each of the above-mentioned stations. As can be seen from the map, the acquisition of stations WBSS-FM, WKXW(FM) and WBUD(AM), combined with the Atlantic City/Ocean City stations, creates two markets for purposes of the Commission's multiple ownership rules.

The first market is defined by the principal community contours of stations WFPG(AM), WFPG-FM, WPUR(FM), WBSS-FM and WKOE(FM) -- one AM station and four FM stations. Under Section 73.3555(a)(1)(ii) of the Commission's rules, in a radio market with between 30 and 44 commercial radio stations, a party may own, operate, or control up to 7 commercial radio stations, not more than 4 of which are in the same service (AM or FM). See 47 C.F.R. § 73.3555(a)(1)(ii). As illustrated in the attached Dataworld duopoly map and study, there are over 30 commercial radio stations whose principal community contours overlap the principal community service contours of WFPG(AM), WFPG-FM, WPUR(FM), WBSS-FM and/or WKOE(FM). Accordingly, common ownership of these stations is in full compliance with the FCC's regulations.

¹ See FCC File Nos. BAL/BALH 20010327AGC, AGD, AGE. These assignments have not yet been consummated.

The second market is defined by the principal community contours of stations WKXW(FM) and WBUD(AM). Common ownership of WKXW(FM) and WBUD(AM) by Press has been previously approved by the Commission, and these stations are also currently under common ownership in compliance with Section 73.3555(a) of the FCC's regulations. Under Section 73.3555(a)(1)(iv) of the FCC's regulations, even in the smallest radio markets, a party may own, operate, or control up to five commercial radio stations, not more than three of which are in the same service (AM or FM), except that a party may not own, operate or control more than 50 percent of the stations in such market. As demonstrated in the attached map and duopoly study prepared by Dataworld, there are nearly fifty commercial radio stations whose principal community contours overlap the principal community service contours of WKXW(FM) or WBUD(AM). Accordingly, as there are well over four stations in the market, the proposed common ownership of these stations is also in full compliance with the FCC's regulations.²

² Millennium Shore License Holdco, LLC ("Millennium Shore"), which is also indirectly wholly-owned and controlled by Millennium Radio, intends to shortly file an application on FCC Form 314 seeking Commission consent to the assignment of licenses for radio broadcast stations WJLK-FM, Asbury Park, New Jersey, WADB(AM), Asbury Park, New Jersey, and WBBO(FM), Ocean Acres, New Jersey from Nassau Broadcasting II, L.L.C. to Millennium Shore. Millennium Shore also intends to file FCC Form 314 applications seeking to acquire WOBM(AM), Lakewood Township, New Jersey and WOBM-FM, Toms River, New Jersey from North Shore Broadcasting Corp. and Seashore Broadcasting Corp. respectively. Some of these stations overlap the principal community contours of the above-mentioned Press and Citadel stations. However, as will be demonstrated in these applications, common ownership of all of the stations is in full compliance with the FCC's regulations.
