

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS
CAPSTAR TX LIMITED PARTNERSHP

This statement and the attached figures were prepared on behalf of Capstar TX Limited Partnership ("CTLTP"), a licensee subsidiary of Clear Channel Communications, Inc. ("CCC"). CTLTP proposes to modify the facilities of WDXB(FM) to specify operation at Pelham, AL. A multiple ownership analysis was prepared considering the following radio stations under present or proposed common ownership, time brokerage or joint sales:¹

Table 1: Proposed Commonly Owned, Brokered or Jointly-Sold Stations
Studied and Associated Arbitron Metro² Information

Calls	Fac ID	Band	Community	County	State	Geographic Arbitron Market	Declared Arbitron Market
WDXB	2114	FM	JASPER to PELHAM	WALKER to SHELBY ³	AL	BIRMINGHAM, AL	BIRMINGHAM, AL
WAAX	22996	AM	GADSDEN	ETOWAH	AL	NON-METRO	NON-METRO
WERC	2112	AM	BIRMINGHAM	JEFFERSON	AL	BIRMINGHAM, AL	BIRMINGHAM, AL
WTXT	68418	FM	FAYETTE	FAYETTE	AL	NON-METRO	TUSCALOOSA, AL
WMJJ	2111	FM	BIRMINGHAM	JEFFERSON	AL	BIRMINGHAM, AL	BIRMINGHAM, AL
WQEN	22997	FM	TRUSSVILLE	JEFFERSON	AL	BIRMINGHAM, AL	BIRMINGHAM, AL
WRTR	48645	FM	BROOKWOOD	TUSCALOOSA	AL	TUSCALOOSA, AL	TUSCALOOSA, AL
WENN	62278	FM	HOOVER	JEFFERSON	AL	BIRMINGHAM, AL	BIRMINGHAM, AL

Since certain of these stations have overlapping principal community contours (5 mV/m for AM stations, 3.16 mV/m for FM stations), or are located in, or home to, the same Arbitron Metro market, an ownership study has been prepared in accordance with the Federal Communications Commission's local radio ownership rule.⁴

CCC does not have an attributable interest in any other station with a principal community contour that overlaps or intersects the principal community contour of WDXB(FM) as proposed, or which is located in the same Arbitron Metro⁵ as WDXB(FM).

Arbitron Market Study

WDXB(FM) is expected to continue to be reported by BIA as part of the Birmingham, AL Arbitron metro. This proposal is in compliance with the local radio ownership rules for that Arbitron Metro, as evidenced by Table 2 below:

¹ None of the following stations are attributable by virtue of a time brokerage agreement or joint sales agreement.

² Arbitron data presented herein is obtained from BIA's "Media Access Pro."

³ Shelby County Alabama is within the geographic boundaries of the Birmingham Arbitron Metro.

⁴ See 47 C.F.R. § 73.3555(a).

⁵ A station is considered to be "located in an Arbitron Metro" if the station's community of license is located within the boundaries of that Metro, or, the station is listed as "Home" to that Metro by BIA.

Interim Contour-Overlap Analysis

Because the proposed principal community contour of the station to be modified intersects the principal community contour of a station under common ownership or attribution whose community of license is located outside any Arbitron Metro, an interim contour-overlap analysis is also set forth in this statement.

Interim Contour-Based Radio Markets

A "radio market" under the interim contour-overlap method is the area encompassed by the mutually overlapping principal community contours of the stations under common-ownership or attribution. Here, such mutually overlapping contours form one "radio market" for interim contour-overlap analysis under the Commission's rules.

"Radio market 1" is defined by the mutually overlapping principal community contours of WTX(FM), WRTR(FM), WQEN(FM), WMJJ(FM), WDXB(FM) and WAAX(AM). The predicted principal community contours of these stations (1 AM / 5 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 2*.

"Radio market 2" is defined by the mutually overlapping principal community contours of WENN(FM), WQEN(FM), WMJJ(FM), WDXB(FM), WERC(AM) and WAAX(AM). The predicted principal community contours of these stations (2 AM / 4 FM), as well as other stations whose principal community contours overlap this combination, are shown in *Figure 4*.

Count of Stations in Defined Markets

The number of radio stations in a contour-overlap "radio market" is determined by counting the operating stations having principal community contours which overlap or intersect the principal community contours which define the radio market, plus the subject commonly owned or attributable stations, excluding any stations whose transmitter sites are further than 92 kilometers from the perimeter of mutual overlap, and excluding any commonly owned or attributable stations that do not serve to define the market.

In the interim contour-overlap "radio market 1" studied herein, there are at least 63 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 3* is the tabulation of some of the radio stations identified in the contour-overlap "radio market".

In the interim contour-overlap "radio market 2" studied herein, there are at least 32 radio stations, including the subject co-owned stations, which overlap or intersect with the defined "radio market." *Figure 5* is the tabulation of some of the radio stations identified in the contour-overlap "radio market".

Only known licensed, operating radio stations were included in this tabulation. Distances to contours for AM stations were predicted using the antenna patterns as identified in the Commission's AM database and the appropriate Ground Wave Field Strength versus Distance Graph of 47 C.F.R. § 73.184. Ground conductivities were obtained from FCC Figure M3. Distances to the FM contours were determined based on the method of 47 C.F.R. § 73.313. Terrain data was derived from the N.G.D.C. 30 second computer database for each of the FM stations using radials spaced every 45 degrees of azimuth.

Conclusion

In the Arbitron Metro Market studied herein, there are at least 45 radio stations, including the subject commonly-owned 1-AM / 4-FM stations, one of those being WDXB(FM), which are home to the Birmingham, AL Metro.

In the interim contour-overlap "radio market 1" studied herein, there are at least 63 stations, including the commonly-owned 1-AM / 5-FM stations.

In the interim contour-overlap "radio market 2" studied herein, there are at least 32 stations, including the commonly-owned 2-AM / 4-FM stations.

Based on the above, it is concluded that the proposed modification complies with Section 73.3555(a) of the FCC Rules.

Respectfully submitted,

Lance Nelms
FCC Engineer
