RE: Consent to file minor change application of a License at Roswell, NM on Channel 211A (90.1 MHz)

Dear Mr. Novak:

KOCT consents to the filing of an application for a minor change to the current License on Channel 211A at Roswell, NM. Specifically, KOCT consents to the upgrade to the facility at coordinates 33-21-47 N by 104-38-11 W, with a center of radiation not to exceed 1283 meters AMSL. The ERP shall not exceed 2.4 kw.

Educational Media Foundation has agreed to be responsible for resolving any and all interference complaints that might arise due to this change. Remedies may include the installation of TVI filters, which, if necessary, will be installed at no expense to KOCT or its viewers. The name and phone number of the person charged with resolving any problems will be supplied to KOCT prior to the completion.

KOCT reserves the right to require Educational Media Foundation to reduce power or cease operation in the event that interference issues cannot be resolved to the satisfaction of KOCT, in its sole discretion.

Sincerely,

 8-6-08

Gary Williams
Director of Engineering
KOAT-TV
