Re: KOMA(FM); Oklahoma City, OK  
Facility ID No. 72469  
Renda Broadcasting Corp. of Nevada  
BPH-20050531ANM

Dear Mr. Lipp:

The staff has under consideration the above-captioned application for a minor change to a licensed facility. The antenna supporting structure must be registered before processing of the application can be completed.

**Antenna Structure Registration Required**

Pursuant to 47 CFR Section 17.4(a), any proposed construction of a new antenna structure or proposed alteration of an existing antenna structure that requires notification to the Federal Aviation Administration (FAA) requires registration with the Commission prior to construction or alteration. Our records indicate that the tower for the facility proposed in the captioned application is not registered. FCC antenna structure registration may be accomplished electronically via the Internet at <http://wireless.fcc.gov/antenna/>.

Please note that FAA approval is necessary in order to obtain FCC antenna structure registration. Following FCC registration of the antenna structure, a curative amendment to application BPH-20050531ANM, which includes the antenna structure registration number, must be submitted to the Commission so that processing of the application may be completed. If the proposed antenna structure cannot be registered within 90 days of the date of this letter, Renda Broadcasting Corp. of Nevada must notify the Audio Division, in writing, concerning the delay.<sup>1</sup>

---

<sup>1</sup> If the tower cannot be registered within the initial 90 day period, the first response to this letter shall be filed in triplicate with the Secretary of the Commission and shall contain a specific narrative of the actions taken to obtain registration. The response shall include copies of all correspondence between the FAA and both Renda

In the event that further delays in the registration process occur, Renda Broadcasting Corp. of Nevada must provide the Audio Division with written updates every 60 days thereafter.<sup>2</sup> In addition, to inform the staff of the filing of the amendment, feel free to send an e-mail to *Gary.Loehrs@fcc.gov*, or fax a copy of the amendment to 202-418-1411.

Further action on the subject application will be withheld for a period of 90 days from the date of this letter to provide an opportunity to respond. Failure to respond within this time period or to provide the written updates every 60 days will result in the dismissal of the application pursuant to 47 CFR Section 73.3568(a)(1).

Sincerely,

George H. Gwinn  
Supervisory Engineer  
Audio Division  
Media Bureau
