ENGINEERING STATEMENT

This Engineering Statement supports a Duopoly Study conducted on behalf of Burt Broadcasting Company, Alamogordo, New Mexico, licensee of radio stations KYEE-FM, KZZX-FM, and KINN-AM. Burt Broadcasting Company proposes to acquire an FM construction permit, BPH-970821MD operating on channel 300A.

Under 47 C.F.R. Section §73.3555, (a)(1)(iv), in a radio market with 14 or fewer commercial radio stations, a party may own up to 5 commercial radio stations of which not more than 3 may be in the same service. The instant duopoly study shows the ability of the applicant to acquire the instant proposed construction permit.

In reviewing the available radio facilities in the Alamogordo market, a minimum of 7 licensed AM and FM radio stations were found that contribute either a 3.16 mV/m contour for FM or a 5.0 mV/m contour for AM to the service area in question. The addition of the instant construction permit will raise this number to 8. These are depicted on the attached map and are listed herewith as:

1. KYEE-FM, Alamogordo, NM, Channel 232A
2. KZZX-FM, Alamogordo, NM, Channel 288A
3. KINN-AM, Alamogordo NM, 1270 kHz
4. NEW-FM, Alamogordo, NM, Channel 300A
5. KPSA-FM, La Luz, NM, Channel 224A
6. KNMB-FM, Cloudcroft, NM, Channel 244C
7. KNMZ-FM, Alamogordo, NM, Channel 279A
8. KRSY-AM, Alamogordo, NM, 1230 kHz
