

Exhibit 36

Request for Extension of STA

Applicant BlueStone License Holdings, Inc. (“BlueStone”), licensee of KCFW-TV and permittee of KCFW-DT, Kalispell, Montana, requests extension of Special Temporary Authority (“STA”) BDSTA-20020114ABD, which was modified per the Commission’s grant on January 14, 2004 (BMDSTA-20031219AUQ), and extended most recently on May 23, 2006 (BEDSTA-20060421ACZ).

On May 31, 2007, KCFW-TV and seven co-owned stations were acquired by Bonten Media Group, LLC (“Bonten”). Upon review of BlueStone’s records, Bonten discovered that KCFW-DT has been operating pursuant to the STA, which has an expiration date of July 1, 2006. The FCC has long authorized the station to operate as a “satellite” of co-owned station KECI-TV, Missoula, Montana. While BlueStone by letter of July 7, 2006<sup>1</sup> notified the FCC of its satellite exemption status and intent to remain at lower power on its interim digital channel and to activate full digital facilities on its NTSC channel 9 at the conclusion of the digital transition,<sup>2</sup> it appears that it did not, concurrently with the July Letter, file a request for extension of the STA.

Upon discovering the oversight regarding filing a separate request to extend the STA, Bonten has immediately filed this request. Accordingly, Bonten hereby respectfully requests acceptance of the STA extension request *nunc pro tunc* by the Commission.
