

**Exhibit 4**

Attached to this application is a copy of the Asset Purchase Agreement (the “Agreement”) covering the assignment of license of WBVQ(FM), Barrackville, West Virginia from CAT Radio, Inc. (“Seller”) to Descendants Trust d/b/a AJG Broadcasting Company (“Buyer”). A copy of the Agreement is being placed in the WBVQ(FM) public inspection file.

The parties have not submitted the schedules to the Agreement with this application, nor are the schedules being placed in the public files. The schedules contain information that is either proprietary, not germane to the Commission’s evaluation of the application, or already in the possession of the FCC. The following is a list of the exhibits and schedules to the

Agreement:

|                 |                            |
|-----------------|----------------------------|
| Schedule 1.1(a) | FCC Authorizations         |
| Schedule 1.1(b) | Tangible Personal Property |
| Schedule 1.1(c) | Real Property Leases       |
| Schedule 1.1(d) | Station Contracts          |
| Schedule 1.1(e) | Intangible Property        |

As can be seen from the above lists of schedules, many of the schedules consist of voluminous lists of items to be conveyed, such as fixed assets, contracts, leases, and the like. These are irrelevant to the Commission’s consideration of the application, and would not assist the public in reaching an informed decision regarding the qualifications of the parties or a determination of whether the public interest would be served by grant of the instant application.

Some exhibits and schedules contain lists of licenses, applications, and the like. This information is already in the Commission’s files relating to the stations.

It should be noted that the listing of a schedule does not mean that the schedule contains substantive information. As is often the case, during the course of negotiation, the parties may provide for schedules in an agreement before they have determined whether any information will be placed in those schedules (e.g., “except as set forth in Schedule X, all the equipment is in operating condition”). In such a case the final schedule may contain only an entry such as “None.” Therefore, the mere fact that a schedule is listed and numbered should not be interpreted to mean that such schedule actually contains any substantive information.

For the reasons given above, it is submitted that the public interest would not be served, and indeed it would be a waste of the resources of the Commission and the parties to require that the exhibits and schedules to the Stock Purchase Agreement in this case be submitted to the Commission or be placed in the public inspection file.

In the event that the Commission desires to review any of the subject information, it will be supplied to the Commission. The parties reserve the right, in appropriate circumstances, to submit such information pursuant to regulations implementing the Freedom of Information Act which restrict public access to certain highly confidential information.

Cat Radio, Inc. and Descendants have entered into Time Brokerage Agreement for WBVQ(FM). The parties have not submitted Exhibit 1 to the Time Brokerage Agreements as it contains financial and proprietary information.
