

Assignee's Educational Objective

The Assignee's education objective will consist of producing and airing educational programs with a focus on offering a diverse group of community organizations, the opportunity to express their opinions and views on issues of importance to their communities, on a local, regional and national level. The station's educational objective will also include local programming that will be produced by a variety of talented individuals from all segments of the community. The assignee will use its educational programs to promote healthy lifestyles, by airing educational health programs for the purpose of educating the community on health issues and the need to have health checkups on a regular basis. Furthermore, the assignee will use WMBT 90.1 FM to advance its educational objective, and will further that educational objective according to 47 C.F.R. Section 853. The LPFM radio station, will also offer a genre of music that will be beneficial and appealing to a variety of listeners throughout the community.
