

## **Class A TV Station WWDT-CA • Channel 43 • Naples, Florida**

### **Statement Concerning Environmental Protection**

The proposed operation of Class A TV Station WWDT-CA, Channel 43, Naples, Florida, will comply with the Commission's rules concerning environmental protection. Based upon the far-field calculation method specified in OET Bulletin No. 65 (August 1997), the maximum calculated power density near ground level is 2.5% of the public limit applicable to TV Channel 43. The applicant is therefore categorically excluded from having to consider the contributions of other stations at the site.

The nearest FCC monitoring station is at Vero Beach, Florida, about 172 kilometers distant. The nearest AM station is WMYR, 1410 kHz, Fort Myers, Florida, about 13 kilometers distant. None of the conditions in Section 1.1307 of the Rules are believed to apply
