COMPREHENSIVE TECHNICAL EXHIBIT

Application for Construction Permit
K25BD, Facility ID 11135
FCC File Number BLTTL-19880204IQ
EICB-TV EAST, LLC

Application for Minor Change in Licensed Facility. The within proposal seeks only a change in effective radiated power from 14.2 kW to 0.2 kW. All other parameters remain the same. The same community is served and the proposal's 74 dBu F50, 50 contour is entirely contained within that of the underlying license.

Interference Analysis. The proposal has overlap to the following:

BLEDT-20060620ABP, KOZJ, Channel 25, Joplin, MO.

With respect to that facility, the proposal has been subjected to the Longley-Rice interference study used by the Commission as run on the *Sun Blade* computer and found to produce less than 0.5% interference. Accordingly, waiver of §74.706 as applicable is requested.
