

Compliance with Special Operating Conditions

The Construction Permit contains several Special Operating Conditions, summarized as follows:

1. The permittee/licensee, in coordination with other site users, must reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. The permittee has been granted a waiver of 47 C.F.R. Section 73.1125 to operate KLVY as a satellite operation of Station KLVR(FM), Santa Rosa, CA (FIN 18801).
3. Further modification of KFSR (FM), Fresno, CA (FIN 8349) will not be construed as a per se modification of KLVY's license.
4. The permittee must either use an EPA Type 3 ("rototiller") 8-bay 0.5 wavelength-spaced antenna or provide documentation demonstrating compliance with the FCC radiofrequency field exposure guidelines.

Educational Media Foundation ("EMF"), complies with, or agrees to, these conditions, as follows:

1. EMF agrees to fully cooperate with other site users to reduce power or cease operation as necessary to protect persons having access to the site, tower, or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. EMF agrees to continue to abide by the representations proffered in its waiver request (see also Exhibit 6).
3. EMF agrees that further modification of KFSR (FM), Fresno CA (FIN 8349) will not be construed as a per se modification of KLVY's license.
4. EMF has used an ERI MPX-8E-HW eight-bay half-wave-spaced antenna; therefore the automatic program test provisions of 47 C.F.R. Section 73.1620 apply.

Therefore, all Special Operating Conditions of the KLVY-FM Construction Permit (FCC File Number BPED-20011119ACE) have been met.
