Los Angeles, California 90064

Re: Station KSMV-LP  
Los Angeles, California  
File No. BDISDTL-20081022ABW  
FIN: 14002

Dear Mr. Wilkinson:

This is written on behalf of KVMD Licensee Co., L.L.C., ("KVMD"), the licensee of Station KVMD-DT, Digital Channel 23, Twentynine Palms, California, and Station KIMG-LD, Channel 23, Ventura, California (collectively, the "Stations").

You have advised KMVD that KJLA, LLC's ("KJLA"), the licensee of Low Power Television Station KSMV-LD, Channel 23, Los Angeles, California, is filing with the FCC an application (the "Application") seeking authorization to modify the facilities of Station KSMV-LD.

In connection with the application that KJLA is filing, KMVD was made aware by you that the operation of the digital operations of KSMV-LD station on Channel 23, from its transmitter site on Mt. Wilson, is predicted to cause interference to the operation of the Stations in excess of the threshold permitted by the rules and regulations of the Federal Communications Commission ("FCC"). KMVD has reviewed this matter with its engineering consultant and is aware of the locations where it will occur and the level of interference that the Stations are expected to receive.

After due consideration, KMVD wishes to confirm that it has no objection to the request KJLA proposes to submit to the FCC for modification of KSMV-LP.

KJLA is authorized to submit this letter to the FCC in support of the Form 346 application that it is submitting.
