RE: WMCD – Statesboro, Georgia  
WSKX – Hinesville, Georgia  
Tama Broadcasting, Inc.

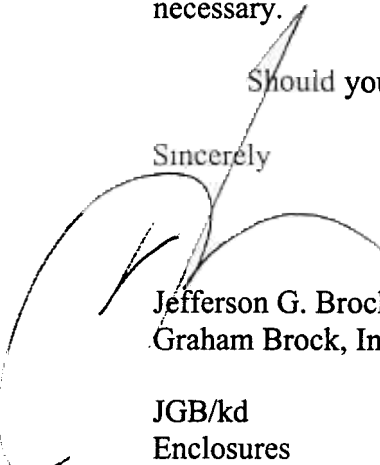

Dear Erwin:

At your request, we have reviewed whether the proposed transfer of stations WMCD, Channel 261C2, Statesboro, Georgia, and WSKX, Channel 222C2, Hinesville, Georgia, to Tama Broadcasting, Inc., would require the preparation of a Radio Multiple Ownership Analysis. Based on the location of the city grade contours of the licensed facilities of each station, there is no overlap of the 70 dBu (3.16 mV/m) contours, as demonstrated on the attached map.

Based on this information, the two stations are stand alone FM facilities and do not overlap with each other, nor do they overlap with any other facility in which Tampa Broadcasting, Inc., has an attributable interest. Therefore, no multiple ownership study is necessary.

Should you have any questions, please do not hesitate to contact me.

Sincerely

Jefferson G. Brock
