

**KRCY**  
**Application for Minor Change**  
**(revised 12/5/2006)**

**Multiple Ownership Exhibit**

KRCY-FM is owned by Rick L. Murphy, who has a cognizable interest in three other FM stations whose contours overlap KRCY. Each of these stations is outside of Arbitron markets, and so this exhibit uses the interim contour overlap methodology.

Fifteen (15) stations in which Mr. Murphy has no cognizable interest overlap the contours of some or all of his mutually overlapping stations.

(At least two additional overlapping non-owned stations exist whose transmitters are located more than 92km from the mutual overlap area of KRCY and KADD. These are not counted in the total of fifteen.)

On the attached "KRCY Multiple Ownership Map," the principal city contours of stations in which Mr. Murphy has a cognizable interest are mapped in red. These stations are:

KADD (FM)  
KRCY-FM  
KRRK (FM)  
KZUL-FM

In addition, Mr. Murphy owns KFTT(FM). As shown on the map, this station does not overlap any other station owned by Mr. Murphy.

The overlapping stations in which Mr. Murphy has no cognizable interest are mapped in blue. These stations are:

KAAA (AM)  
KFLG (AM)  
KFLG-FM  
KGMN (FM)  
KHWY (FM)  
KJJJ (AM)  
KLUK (FM)  
KLPZ (AM)  
KNKK (FM)  
KNLB (FM)  
KNTR (AM)  
KRIT (FM)  
KTOX (AM)  
KWFH (FM)  
KZZZ (AM)

(KJJJ and KZUL share a common tower, and KRCY is proposed to share the same tower. All three stations are the same Class. Therefore, the contours of these three stations fall on top of each other, and while they are mapped separately, their contours blend into one on the map. The contour of these three stations is indicated by a box with the three call signs and an arrow pointing to the contour.)

There are nineteen (19) stations in all, fifteen (15) of which are owned by others. This allows Mr. Murphy to have a cognizable interest in up to four FM stations, and that is what he holds. Therefore, this proposal complies with 47CFR 73.355(a).
