COMPREHENSIVE TECHNICAL EXHIBIT REQUEST FOR SPECIAL TEMPORARY AUTHORIZATION

**Application for STA
W69DH, FCC ID 57865
FCC File Number BLTTL-20001201ACC and BPTTL-20030701CQU
EICB-TV East, LLC**

Application for Special Temporary Authorization. W69DH has a construction permit, BPTTL-20030701CQU, to construct a larger facility at a tower near Pensacola, FL, which will enhance its service area and thus its service to the public. This application seeks authority to construct and operate an intermediate facility near the new location in order to provide improved service while the applicant resolves tower access issues at the site of the outstanding CP. The intermediate facility proposed in this STA request is a significant improvement over the licensed facility but is somewhat reduced from the final facility described in the construction permit. As the expiration date of the CP approaches, the applicant will complete the facility in accordance with the terms of BPTTL-20030701CQU. The protected contour of the within application enjoys significant overlap with that of the underlying construction permit and serves the same market area.

Interference Analysis. The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application as performed by the Techware, Inc. FCC interference analysis program on a Sun Blade computer.

- a. The facilities which exhibit contour overlap or short spacing and thus must be studied are:

FILE NUMBER	CALLSIGN AND LOCATION
BLCDT-20021025ABG	WJTC, Pensacola, FL
BLCDT-20060620ABX	WMCFTV, Montcomery AL
BMLCT20030616AAW	WPCT, Panama City Beach, FL
BLCDT20050815AAA	WCTV, Thomasville, GA
BLCDT20020510ABE	WPMITV, Mobile, AL
BLCT19840221KF	WPAN, Fort Walton Beach, FL

- b. Interference suffered by all listed facilities is less than 0.5%.
- c. Accordingly, waiver of §§74.705 and 74.706 as appropriate is requested.
