

TECHNICAL STATEMENT
RADIO MULTIPLE OWNERSHIP ANALYSIS

We propose a minor modification for this station. A multiple ownership analysis was prepared considering radio stations under present or proposed common ownership, time brokerage or joint sales.ⁱ

Metro Market Study

The station is designated “home” to the Las Vegas, NV radio Metro; the number of stations owned by us in the Metro is not changing by this application.

According to the FCC’s local ownership “tiers,” in a Metro reported by BIA as having 45 or more commercial and noncommercial educational full-power radio stations, a party may have a cognizable interest in up to 8 commercial full-power radio stations, not more than 5 of which are in the same service(AM or FM)ⁱⁱ. This application complies with the multiple ownership rules because only 3 of more than 45 full-power radio stations (3 FM) will be attributable to us.

Interim Contour-Overlap Analysis

Because the principal community of this station and the communities of all commonly-owned or attributable stations with overlapping principal contours are located inside of a Metro, an interim contour-overlap analysis is not required.

Respectfully Submitted,

Troy G. Langham
VP, Technical Regulatory Affairs
